I am was so excited when Svetlana came on board to help me with my new music project. Back then I was joining two of my projects (Alternative Rock and Traditional Ethnic) into one Ethnic Fusion. I had an idea how to join the MUSIC styles together but was stumbled over The Look. How was I supposed to reflect the music styles in my Image? Svetlana did a wonderful job not only helping me to find the perfect style for me but also organising the photoshoot for my new website. It was a great pleasure to collaborate with Svetlana who's such an enthusiastic and positive person.
